

Arculus Fixed Income Fund

Asset Class: Australian Fixed Income

Rating

STAR RATING: Investment products are awarded a star rating out of a possible five stars and placed on the following websites: www.sqmresearch.com.au & www.FundMonitors.com

This Investment grade rating indicates that the fund has the potential to be an outperforming fund over the medium term as well as the fund manager, Arculus Funds Management.

Fund objective & strategy.

The investment strategy of the Arculus Fixed Income Fund is to identify appropriate investments from the pool of Australian sovereign and Australian senior bank bonds that are expected to generate a sufficiently high yield, commensurate with the assumed risk, with minimum volatility of returns. The Fund is not benchmark aware so is without a duration target. It is focused on achieving an absolute return of the 90-day BBSW rate plus 150bps. The Fund is best suited to investors who seek a low to medium risk investment over a 1 to 3-year period.

Arculus Fixed Income Fund.

- Aim: capital preservation with yield above bank bills. Target BBSW + 1.5%.
- Holds only Australian senior bank securities and sovereign debt issued by commonwealth and state governments.
- All holdings must be REPO eligible - this provides enormous liquidity.
- No leverage. No shorting no currency risk.
- Management Fee 0.368% +GST, NO performance fees.

Arculus risk management.

Arculus is focused on capital preservation. Risk management is central to our investment approach and our operating structures. There are no performance fees that conflict with risk minimisation and Arculus outsources the other fund roles of Administration, Custody, and the Responsible Entity to external, independent groups. This is done to ensure integrity in the unit pricing, reporting and mandate compliance.

* Fund returns are net of all fees. Returns are calculated using exit prices and are calculated after all fees and costs have been deducted, assumes any distributions are reinvested, and no allowance made for tax. The “distribution” component represents the amount paid by way of distribution, including net realised capital gains. Numbers may not sum due to rounding. Past performance is not an indicator of future performance.

The Fund is benchmark unaware – Target return is the 90-Day BBSW +1.5%.
