

Arculus Preferred Income Fund

Asset Class: Australian Fixed Income

Rating

STAR RATING: Investment products are awarded a star rating out of a possible five stars and placed on the following websites: www.sqmresearch.com.au & www.FundMonitors.com

This High Investment grade rating indicates that the fund has the potential to be an outperforming fund over the medium term as well as the fund manager, Arculus Funds Management.

Fund objective & strategy.

The Arculus Preferred Income Fund is a domestic fixed income portfolio invested in Australian Government and Semi-Government Bonds, Corporate Senior & subordinated Bonds, and cash. The Fund aims to provide unitholders with returns higher than cash and traditional debt securities over the medium to long term with a target rate of return of the 90-day BBSW rate plus 350bps. The return is a combination of income distribution and capital growth. The Fund does not employ leverage either directly or using derivatives and has no offshore currency, structured credit or leveraged securities. Up to 30% of the Fund can be invested in non-investment grade securities (S&P, Fitch rated below BBB-, Moodys rated below Baa3). The Fund is best suited to investors who seek a medium risk investment over a 3 to 5-year period.

Arculus PIF: hybrid like yield but much safer.

- Hybrid securities alone have a similar yield to the fund however suffer from being near the bottom of a bank's capital structure and are prone to equity market volatility.
- The fund predominantly holds yield securities better ranking up the capital structure than hybrids, however our active management delivers returns at or above that of hybrids. Hence better returns and much lower risk.

* Fund returns are net of all fees. Returns are calculated using exit prices and are calculated after all fees and costs have been deducted, assumes any distributions are reinvested, and no allowance made for tax. The "distribution" component represents the amount paid by way of distribution, including net realised capital gains. Numbers may not sum due to rounding. Past performance is not an indicator of future performance.
